SAFETY DATA SHEET

Effective Date 09-Oct-2018
Version 4

1. IDENTIFICATION

Product Identifier
Product Name SELF CURING DENTURE POWDER / JET DENTURE REPAIR POWDER

Other means of identification
SDS# 004
Product Code 0830, 0834, 0850, 0856, 0870, 0880 / 1212, 1220, 1223, 1230, 1234, 1250, 1256, 1270, 1280

Recommended use of the chemical and restrictions on use
Recommended Use Fabrication of dentures

Details of the supplier of the safety data sheet
Supplier Address Lang Dental Mfg. Co., Inc.
175 Messner Dr.
Wheeling, IL 60090
USA

Emergency telephone number
Company Phone Number 847-215-6622
Emergency Telephone (INFOTRAC) 352-323-3500 (International)
800-535-5053 (North America)

Authorized European Representative Medimark® Europe SARL
11, rue Emile Zola – BP 2332
38033 Grenoble Cedex 2
France
Tel: +33 476 86 43 22
Fax: +33 476 17 19 82
Email: info@medimark-europe.com

2. HAZARDS IDENTIFICATION

Classification of the substance or mixture

| Skin sensitization | Category 1 |

Signal word Warning

Hazard statements H317 May cause an allergic skin reaction.

Physical State Powder Appearance Fine, white to pigmented Odor Faint odor in bulk

Precautionary Statements – Prevention

P261 Avoid breathing dust, fumes, gas, mist, vapors or spray.
P264 Wash hands and exposed skin thoroughly after handling.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
Precautionary Statements – Response
P281 Use personal protective equipment as required.
P363 Wash contaminated clothing before reuse.
P302+P352 IF ON SKIN: Wash with soap and water.
P305+P351 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy +P338 to do – continue rinsing.
P308+P313 If exposed or concerned: Get medical advice/attention.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P337+P313 Get medical advice/attention.

Precautionary Statements – Disposal
P501 Dispose of contents/container to an approved waste disposal plant.

3. COMPOSITION / INFORMATION ON INGREDIENTS

</tr>
</tbody>
</table>

*Specific chemical weight has been withheld as a trade secret.

4. FIRST AID MEASURES

First aid measures

Inhalation Remove to fresh air. Keep at rest in a position comfortable for breathing. Get medical attention if discomfort persists.

Eye contact Rinse immediately with plenty of water, including under the eyelids, for at least 15 minutes. If irritation persists, get medical advice / attention.

Ingestion Do NOT induce vomiting. Drink plenty of water or milk immediately. If vomiting, continue to offer water or milk. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately and provide an estimate of when and how much material was ingested.

Skin Contact Wash with soap and water. If irritation persists, call a physician. Take off contaminated clothing and wash before reuse.

Most important symptoms and effects, both acute and delayed

Symptoms Skin contact may aggravate an existing dermatitis. Direct contact with eyes may cause temporary irritation.

Indication of any immediate medical attention and special treatment needed

Note to physicians Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Extinguishing Media
Suitable: Water, chemical (alcohol-resistant) foam, dry chemical, or carbon dioxide (CO₂).
Unsuitable: Water may not be effective in extinguishing this fire.

Specific hazards arising from the chemical
For bulk size: Polymers are combustible dusts, care should be taken to avoid creating explosive concentrations in the air. Follow grounding and bonding procedures.

Special Fire Fighting Procedures:
Avoid extinguishing methods, which may generate dust clouds. Water stream can disperse dust into air producing a fire hazard and possible explosion hazard if exposed to ignition source. Firefighters should wear self-contained breathing apparatus.

Protective equipment and precautions for firefighters
For bulk size: Polymer dust is combustible. The explosive limits of the polymer particles suspended in air are approximately those of coal dust. Polymers are sensitive to static charge, follow grounding and bonding procedures. Polymers are not sensitive to mechanical impacts.
6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions
Use personal protective equipment as required. Remove any contaminated clothing and wash thoroughly before reuse.

Methods and material for containment and clean-up

Method for containment
Prevent further leakage or spillage if safe to do so. Dike and contain spill with inert material, sand or earth. May contaminate water supply.

Method for clean-up
Sweep up to avoid slipping hazard. Keep airborne particulates at a minimum when cleaning up spills. Clean up in accordance with all applicable regulations. Wash all affected areas with plenty of warm water and soap.

7. HANDLING AND STORAGE

Precautions for safe handling
Use only in well-ventilated areas. Avoid contact with skin, eyes or clothing. Avoid breathing dust or fume. Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly after handling. Do not eat, drink or smoke when using this product.

Conditions for safe storage, including any incompatibilities

Storage Conditions
Keep containers tightly closed to prevent water absorption and contamination. Store in a dry, cool and well-ventilated place away from direct sunlight or other sources of light or intense heat. Temperature not to exceed 35°C.

Packaging materials
Keep in original container.

Incompatible materials
Strong oxidizing agents

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure guidelines

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
<th>NIOSH IDLH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Benzoyl peroxide</td>
<td>TWA: 5 mg/m³</td>
<td>TWA: 5 mg/m³</td>
<td>TWA: 5 mg/m³</td>
</tr>
</tbody>
</table>

Appropriate engineering controls
Apply technical measures to comply with the occupational exposure limits. When working with large quantities of product, provide adequate ventilation (e.g. local exhaust ventilation, fans). Ensure that an eyewash station, sink or washbasin is available in case of exposure to eyes. Use good local exhaust at processing equipment, including buffers, sanders, grinders and polishers.

Individual protection measures, such as personal protective equipment

Eye / face protection
Depending on the use of this product, safety glasses or goggles may be worn. If necessary, refer to US OSHA 29 CFR SS1910.133, Canadian standards or the European Standard EN 166. Ensure that an eyewash station, sink or washbasin is available in case of exposure to eyes.

Skin and body protection
If anticipated that prolonged and repeated skin contact will occur during use of this product, wear gloves for routine industrial use. If necessary, refer to US OSHA 29 CFR SS1910.138 or the appropriate standards of Canada or the EC member states.

Respiratory protection
No special respiratory protection is required under typical circumstances of use or handling. If necessary, use only respiratory protection authorized per US OSHA requirement in 29 CFR SS 1910.134, or applicable US state regulations, or the appropriate standards of Canada, its provinces, EC member states or Australia. VENTILATION: Local exhaust at processing equipment.
9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

Reactivity                       | Not reactive under normal conditions      |
Chemical stability               | Stable under recommended storage conditions |
Possibility of hazardous reactions| None under normal processing              |
Hazardous polymerization         | Does not occur.                           |
Incompatible materials           | Strong oxidizing agents                   |
Hazardous decomposition products | Methacrylate monomer, oxides of carbon when burned |

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposures

Product information               | This product has not been tested on animals to obtain toxicology data. |
Inhalation                        | Not expected to be an inhalation hazard under normal conditions of intended use |
Eye contact                       | Avoid contact with eyes.                   |
Skin contact                      | Avoid contact with skin.                  |
Ingestion                         | Do not taste or swallow.                  |

Information on physical, chemical and toxicological effects

Symptoms                         | See Section 4.                            |

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Component Carcinogenicity        | No data available                         |

12. ECOLOGICAL INFORMATION

Component Ecotoxicity             | There is no specific data available for this product; however, very large releases may be harmful or fatal to overexposed aquatic life. |
Persistence and degradability     | Not determined                            |
Bioaccumulation                   | Not determined                            |
Mobility                          | Not determined                            |
Other adverse effects             | Not determined                            |
13. DISPOSAL CONSIDERATIONS

Waste treatment methods
Disposal of wastes
Follow all local and national government regulations in disposing material or contaminated packaging.

Contaminated Packaging
For bulk only: Reuse of empty drums or containers is not recommended. Employees should be advised of the potential hazards due to residual material associated with empty containers. Dispose of all empty containers properly in accordance with federal, state and local regulations.

14. TRANSPORTATION INFORMATION

DOT Not regulated
IATA Not regulated
IMDG Not regulated

15. REGULATORY INFORMATION

International Inventories
EINECS This product is a medical device and not subject to chemical notification requirements.

US Federal Regulations
TSCA This product is an FDA regulated device and not subject to TSCA regulations.

SARA 302 – Extremely Hazardous – Not Listed
SARA 311 / 312 Hazard Categories – This product is an FDA regulated device and not subject to reporting requirements.
SARA 313 – Toxic Chemicals, component Benzoyl peroxide 94-36-0 Listed

US State Regulations
California Proposition 65 – This product contains the following chemicals which are listed by the State of California as carcinogenic or a reproductive toxin: None
